**of Correction**

ATTN: Certificate of Correction Branch  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**REQUEST FOR CERTIFICATE OF CORRECTION**

Applicant's attorney has noted that mistakes appear in U.S. Patent No. 7,065,910 that occurred through the fault of the U.S. Patent and Trademark Office. The errors appear to be due to typographical errors that change the meaning of the claims. It is therefore requested that the U.S. Patent and Trademark Office correct their mistake and issue a Certificate of Correction pursuant to 35 U.S.C. §254 and in accordance with 37 C.F.R. §1.322.

The affected claims showing the changes noted thereon are shown below, and a copy of completed form PTO/SB/44 is enclosed herewith.

**JUL 13 2006**

1 45. A method for displaying at least one indicium, comprising:  
2 (a) constructing an illumination assembly having an electrical circuit including a  
3 battery, a light source and a switch electrically interposed between the light  
4 source and the battery;  
5 (b) attaching a translucent static cling mounting film to the illumination ~~assemble~~  
6 assembly, the mounting film having a first major surface and a second, opposite  
7 major surface, thereby mounting the illumination assembly on only one side of  
8 the mounting film, but not sandwiching the illumination assembly between the  
9 mounting film and another film;  
10 (c) placing at least one indicium on one of said major surfaces of the mounting  
11 film;  
12 (d) seating one of said major surfaces of the mounting film against a substrate;  
13 (e) adhering the mounting film to the substrate with static attraction between the  
14 mounting film and the substrate; and  
15 (f) manually actuating the switch.

1 46. A display device in combination with a smooth, transparent substrate, the  
2 combination comprising:  
3 (a) ~~and an~~ illumination assembly having an electrical circuit including a battery, a  
4 light source and a switch electrically interposed between the light source and the  
5 battery; and

JUL 13 2006

6 (b) a translucent, static cling mounting film attached to the illumination assembly,  
7 wherein the illumination assembly is disposed on only one side of the mounting film and  
8 is not sandwiched between the mounting film and another film, and the illumination  
9 assembly and the mounting film are mounted to the substrate with static attraction, the  
10 mounting film having a first major surface and a second, opposite major surface, one of  
11 said major surfaces having at least one indicium thereon that is visible when light passes  
12 through the translucent mounting film and the substrate.

Respectfully submitted,

05 July 2006
